

**TO:** Ed Tokarski  
Rohm and Haas Company

**FROM:** Elaine A. Higgins, P.E.  
Groundwater Services, Inc.

**RE:** Monthly Status Report, January 2007, Charlie Burch Site, Spring, Texas.  
VCP No. 421.

### **Activities Completed during January 2007**

The following activities were conducted during the subject reporting period:

- **Plume Delineation:** On January 29-31, 2007, samples were collected from five temporary direct push sampling points on the Southwestern University parcel and analyzed for 1,2-DCA.
- **Groundwater Pump-and-Treat System on the 13-Acre Tract:** A monthly system operation, maintenance, and monitoring site visit was conducted during January.
- **Comprehensive Groundwater Monitoring Event:** Continued to work on preparation of report for comprehensive groundwater monitoring event.
- **Information Website:** Continued development of project information website. Started internal beta testing.

### **Activities Planned for February 2007**

The following activities are planned during the next reporting period:

- **Plume Delineation:** The initial groundwater sampling program involving temporary direct push points will be completed on the Southwestern University parcel. Results will be evaluated prior to installing permanent wells and/or conducting additional investigations.
- **Comprehensive Groundwater Monitoring Event:** Issue draft and final reports.
- **Groundwater Pump-and-Treat System on the 13-Acre Tract:** Continue system operation.
- **Information Website:** Operate website to provide information regarding work at the Charlie Burch site.
