Rohm and Haas Texas Inc.
FROM: Joshua McFarlain (Jacobs),
RE: Quarterly Status Report, First Quarter 2022
Charlie Burch Site, Spring, Texas
VCP No. 421.

Activities Completed during First Quarter 2022:

Groundwater Pump-and-Treat System in Source Area:

- The Pump-and-Treat System in the Source Area remained offline to facilitate an ongoing back-diffusion/plume stability evaluation.
- Monthly Operations and Maintenance (O&M) system inspections were conducted in January, February, and March.

Groundwater Pump-and-Treat System on the 13-Acre Tract:

- The system remains offline to evaluate back-diffusion and plume stability.
- A First Quarter 2022 monitoring well gauging and sampling event was completed as part of the ongoing back-diffusion/plume stability assessment.
- Monthly O&M system inspections were conducted in January, February, and March.

Comprehensive Groundwater Monitoring:

- Preparation of the 2021 Annual Groundwater Monitoring Report.
- Submittal of the Second Half 2021 Semi-Annual Status Report summarizing injection activities during this period. During this time, no injection activities were performed.

Public Communications and Information Website:

- The following project website will be updated to include the First Quarter 2022 Progress Report: <http://charlieburchproject.com/>.

Activities Planned during Second Quarter 2022:

Groundwater Pump-and-Treat System in Source Area:

- The system will remain offline.

Groundwater Pump-and-Treat System on the 13-Acre Tract:

- The system will remain offline.

Comprehensive Groundwater Monitoring:

- The Second Quarter Groundwater Sampling and Gauging Event and the sentinel well sampling event.
