RE: Quarterly Status Report, Fourth Quarter 2025,
Charlie Burch Site, Spring, Texas
VCP No. 421

Activities Completed during Fourth Quarter 2025:

Groundwater Pump-and-Treat System in Source Area:

- The pump-and-treat system at the source area has remained offline following TCEQ approval in a letter dated August 17, 2021, that facilitated a back-diffusion/plume stability evaluation. Results of the study noted that while some back-diffusion could be occurring, the overall plume was stable. Conditions will continue to be evaluated based on ongoing monitoring activities.
- Monthly Operations and Maintenance (O&M) system inspections were conducted in October, November, and December.

Groundwater Pump-and-Treat System on the 13-Acre Tract:

- The system remains offline, as approved by the TCEQ in a letter dated March 2, 2020. Rohm and Haas has a pending request to the TCEQ for approval to permanently shutdown and decommission this system.
- Monthly O&M system inspections were conducted in October, November, and December.

Comprehensive Groundwater Monitoring:

- Completion of a sitewide groundwater monitoring sampling and gauging event.

Public Communications and Information Website:

- The following project website will be updated to include the Fourth Quarter 2025 Progress Report: <http://charlieburchproject.com/>.

Activities Planned during First Quarter 2026:

Groundwater Pump-and-Treat System in Source Area:

- The system will remain offline.
- Monthly system inspections.

Groundwater Pump-and-Treat System on the 13-Acre Tract:

- The system will remain offline.
- Monthly system inspections.
